Budget Message and Policies

October 1, 2026

Honorable Mayor, City Commission and Citizens:

In compliance with Florida Statutes, it is our pleasure to submit the recommended budget for the City of South Pasadena for fiscal year 2026 – 2027 that indicates what services the City will provide during the twelve-month period beginning October 1, 2026 through September 30, 2027. The City faces several financial challenges that require attention in the immediate future, throughout the short-term financial planning horizon, and as part of our long-term financial sustainability. Budget decisions made today must reflect the significance of these challenges while supporting the City's long-term fiscal health. Preserving the General Fund balance remains a key priority to ensure adequate resources are available for future operating and capital needs.

This budget has been prepared in accordance with all applicable City, State, and Federal requirements, as well as generally accepted accounting standards for governments. The City adopts a balanced budget annually, which means budgeted revenue equals or exceeds planned expenditures. Revenues are recognized when they become measurable and available. Expenditures are recognized when they are incurred. Capital items are budgeted as expenditures in the year they are purchased and are characterized as fixed assets for accounting and reporting purposes. The City has projected conservative revenues to avoid shortfalls during the fiscal year and has generally planned operating expenditures to maintain current service levels. To maintain fiscal responsibility, the City examines historical data and anticipates future legislative changes at the State and Federal levels to accurately project revenue streams and expenses.

The City reports the following major governmental funds:

- The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- The Capital Improvements Fund is a governmental fund that accumulates resources for the purchase of capital assets or the construction of capital projects.
- The Sewer Fund accounts for the provision of sewer services that are financed through utility charges to customers.
- The Reclaimed Water Fund is used to account for the costs of reclaimed water services that are financed through utility charges to customers.

Every fiscal decision is carefully evaluated to ensure the City makes informed and responsible choices that align its priorities with evolving economic, environmental, and political conditions. Our appreciation is extended to the City Commission, staff and residents who are committed to helping prepare for the future needs of South Pasadena.

Respectfully Submitted,

Carley Lewis, City Administrator

Heather Guadagnoli, Finance Director

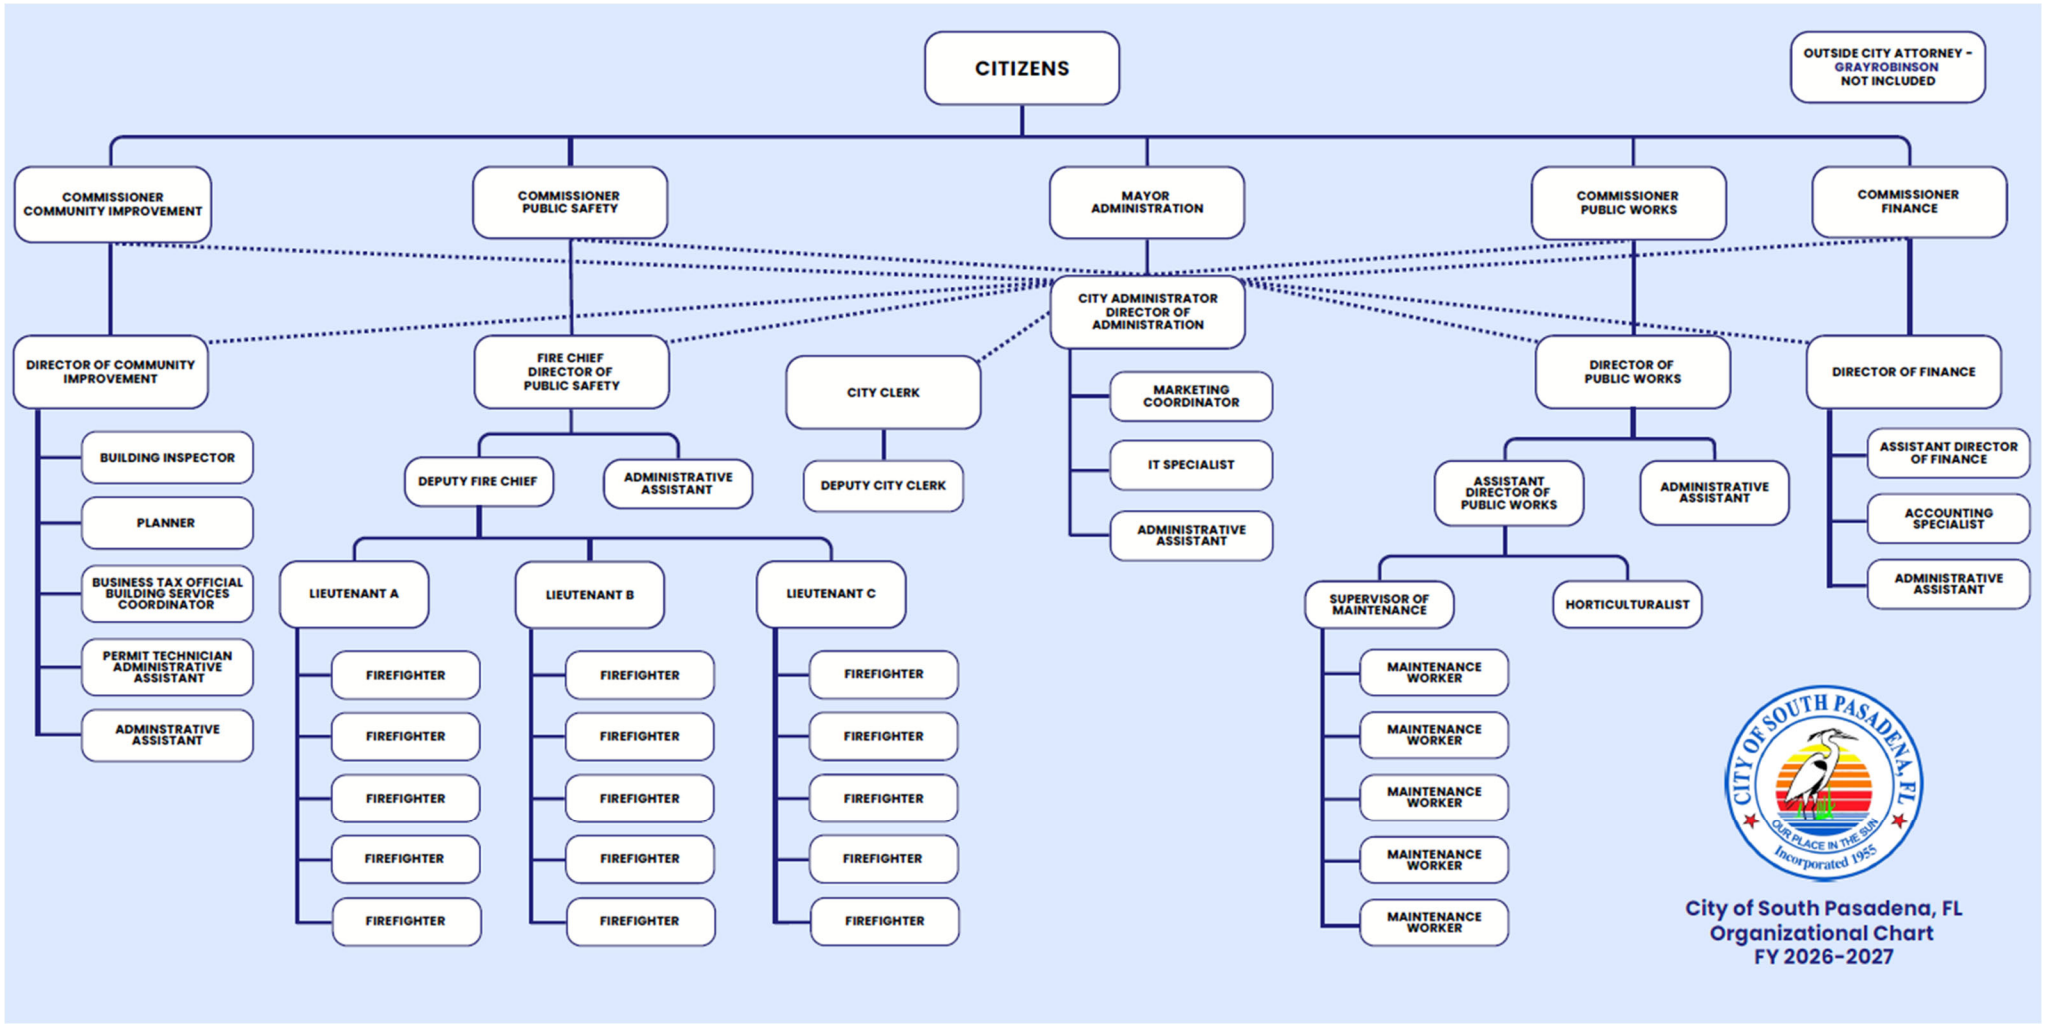

Organizational Structure

Incorporated on July 1, 1955, the City of South Pasadena occupies 0.6 square miles on the west coast of central Florida along Boca Ciega Bay. It shares boundaries with St. Petersburg, Gulfport, and St. Pete Beach, as well as unincorporated areas of the Pinellas County.

The City operates under the Commission form of government. The City Commission is comprised of a Mayor and four Commissioners who are responsible for enacting ordinances, resolutions, and regulations governing the City, as well as appointing members to various statutory and advisory boards, the City Attorney and the City Clerk / City Administrator.

The City provides the full range of municipal services normally associated with a municipality, including fire protection provided by our own fire department; street, parks and playground maintenance from our public works department; community improvement through our in-house building department; as well as general administrative services provided by our administration and finance departments. Library card reimbursement services are available to residents through a partnership with the Pinellas County Library Cooperative. Police protection is provided through an annual contract with the Pinellas County Sheriff's Office. Sewer and reclaimed water services are provided under an enterprise fund concept whereby the City of St. Petersburg and Pinellas County Utilities accept South Pasadena's flow into their processing systems with South Pasadena user charges set by the City Commission to ensure adequate coverage of administrative and legal operating expenses and payments of any related debt.

Analysis of Millage Rate

RESOLUTION NO. 2026-08
EXHIBIT A

Millage Rates

In 1980, the Florida Legislature passed the Truth in Millage (TRIM) Act. This law is designed to inform taxpayers which governmental entity is responsible for the taxes levied and the amount of tax liability taxpayers owe to each taxing authority. The property appraiser sends this information, known as the TRIM notice, to the property owner annually.

Florida Statutes provide for a discount of up to 4% for early payment of Ad Valorem taxes if paid in November, so the City of South Pasadena has budgeted collections of 96% to anticipate these discounts. All unpaid taxes become delinquent on April 1st and are sold at auction on June 1st of each year as tax certificates. The City has fully collected all Ad Valorem revenues after all tax certificates are sold and this cycle occurs within the same budgeted fiscal year.
